

Uber

Uber Ride Analytics Dashboard provides an interactive view of ride-booking performance, operational efficiency, vehicle performance, and customer behavior. The dashboard transforms booking data into meaningful insights through key performance indicators, revenue and booking trends, cancellation analysis, vehicle-wise performance, payment preferences, ride distance, and customer/driver ratings. Use the navigation buttons to explore the Executive Overview, Operations & Cancellations, and Vehicle & Customer Insights pages for a detailed understanding of ride performance and business operations.
